**DETAILED ACTION**

1. Claims 28, 29, 31, 33-44, 47-53, and 55 are allowed. Claims are re-numbered as 1-23.
2. The Amendment filed on 9/14/06 have been entered.

***Allowable Subject Matter***

3. The following is a statement of reasons for the indication of allowable subject matter:

The closest prior art of record discloses a web server for virus checking that uses a remote database to check if the file identification matches with potential virus-infected files prior to delivering content to client. The closest prior art does not explicitly disclose an examiner host computer, which is remote third-party host computer in the wide area network, being outside of the local area network sphere of the client computer, any intermediate computer intercepting client requested web content, and any source host computer of the client requested web content; wherein the examiner host is an independently operating host as a master server, rather than a subordinate slave server such as a database server; wherein the examiner host controls its processes and resources independently, rather than under direct external command; performing on-demand remote identity check on the web content in light of other features disclosed in independent claims 28, 49, 50, and 55. Therefore, claims 28, 29, 31, 33-44, 47-53, and 55 are allowable based on the structural difference over prior art.
